Traditional Values | New Technology | Pure Autocruise

Designed to cope with the modern Pace of life.

Whether you need a vehicle for everyday use, holiday or business the new Autocruise Pace is incredibly versatile.

The layout, the first of its kind from a UK manufacturer, is capable of carrying up to four people and offers flexible space with a large transverse rear bed. This can be fixed or folded up, allowing storage under the bed or between the two bed bases for larger items, enabling you to accommodate anything from general luggage to camping, sports or business equipment.

In addition there is a front dinette that also converts into an occasional single bed, that could sleep two small children, good sized washroom with showering facilities and a well-equipped kitchen.
